Description

A fiscal impact of growth study is an important tool for understanding the economic effects of growth on the Township. Such a study will assist the Township in making informed decisions about how to allocate resources and plan for future growth. This study will identify the costs and benefits of growth

Justification

This study will identify the costs and benefits of growth. Staff are looking for the following deliverables from this Fiscal Impact of Growth Study:

- Growth Forecast Review and projected Assessment
- Capital Forecast Analysis and Financing
- Impact of Growth on Operating Budgets
- Reserve and Reserve Fund Analysis
- Tax Rates, Assessment Forecast, and Analysis
- Analysis of Water and Wastewater Rates and Revenues
- Analysis of Debt Capacity and Other Policies

Description

Implementation of M365 to modernize office applications and provide secure anywhere access. Our current application for email will become End of Life in 2025, which mandates an upgrade before that time while allowing us to modernize in an efficient and timely manner. The project will include both operating and capital costs incurred by the project, while the

second year all licensing costs will transition to operating budget only.

Justification

The productivity, availability and security provided by this application will allow for increased accurate data to staff, Council and residents. The features offered in this software suite make it a cost efficient solution and over time will find cost savings in other software that will be made redundant by this suite. Allows for seamless workflow and integration, and real time updates of work within teams.

Strategic Plan

Theme

ADVANCE ORGANZATIONAL CAPACITY AND EFFECTIVENESS: 5. Invest in tools and professional development that support employee productivity and customer service.

Regions

Description The Information Technology (IT) Masterplan will provide the Township with a document outlining a multi-year IT strategy that will match with Township goals and priorities while also

improving service delivery.

Justification Technology acts as an enabler for the Township to achieve many of the objectives in its Corporate Strategic Plan, specifically: Advance organizational capacity and effectiveness where

one of the key items is " invest in tools and professional development that support employee productivity and customer service".

By developing and following an IT masterplan, the Township aims to modernize their operations, improve service delivery, and adapt to the evolving needs of both internal and external stakeholders in the digital age. The deliverable on this project will provide a tool for the Township to ensure full organization awareness of IT related long-term objectives and initiatives and assist the Township in managing its resources to implement these initiatives successfully.

The following are some key areas that the Masterplan will address:

-IT infrastructure and operations

-Policies

-Cybersecurity and Risk Management

-Implementation of software systems to support municipal service delivery and integration of systems to reduce data duplication and errors. In addition, software solutions can digitize processes and offer online services to improve efficiency and customer service

-Technology Training and Skill Development

In order to fund this project, Administration are recommending that \$75,000 of funds previously budgeted in 2020 for an Intranet Site and a Business Disaster Recovery Study be reallocated to this project. The two projects noted above have changed in scope and Administration feels that they can be addressed using internal resources.

Description Station 2 SCBA cylinder compressor/fill station. Self-Contained Breathing Apparatus (SCBA) Cylinder filling station is used to refill breathing air cylinders used by firefighters in

environments in which the air is not safe to breathe. These cylinders are filled with filtered air at very high pressure (4500psi), requiring specialized equipment.

Justification An SCBA filling station is required to ensure that a sufficient supply of full SCBA cylinders are available at all times for a variety of emergency responses. Firefighters working at scenes

in which the breathing air is contaminated by hazardous compounds require a breathing apparatus and cylinder to provide clean breathing air. These cylinders hold as much as 45 minutes of breathing air, and many cylinders are drained and refilled over the course of a large event. It is important to have sufficient filling capacity at each station to ensure that the

firefighters are able to keep up with the demand for full cylinders in large-scale events.

Description Justification The purchase of four tablets is included in the 2024 budget, and the purchase of an additional four tablets is included in 2025.

Tablets connected to mobile data will provide valuable navigation information to responding fire crews. Due to the multi-functional nature of the devices, they will also be used to

perform provincially required truck checks following calls, as well as allow access to pre-fire plans which can be developed and used to ensure crews are properly informed of specific occupancy hazards. The tablets are expected to be used in conjunction with the newly acquired records management software to integrate both administrative and operational aspects

of the fire service. Tablets are expected to last approximately five years due to the ongoing upgrade nature of operating software and hardware obsolescence realities.

The program is expected to provide sufficient tablets in the first year to outfit the most frequently run apparatus, with the less frequently operated apparatus equipped in the following

Description This is for the purchase of a new tandem dump truck along with plowing equipment to replace the 2015 International Truck TR# 20036.

Justification Economic Life Cycle curve analysis shows that trucks are most efficiently replaced at the 10 year mark, even earlier if there are other factors like using a truck for salt applications.

Administration have determined that for the Township, 10 years is the optimal time for fleet to be replaced. The current timeframe of having a dump truck ordered, built and delivered

is 24 months. Payment does not happen until delivery which is expected to be approximately late 2026.

Strategic Plan Build a safe, connected, caring and active community

Description The project will involve full road reconstruction with new asphalt and granular pavement structure, curb and gutter system with new storm sewers to improve drainage, new concrete

sidewalk, and relocation of utilities to accommodate the road reconstruction work.

Justification A section of the St. Ann's Rd between Sixteen and Twenty Mile is substandard in width. Also the current cross section is semi-rural and will be converted to urban cross section. The

south section from Sixteen to RR20 will be resurfaced and remain as a rural cross section. The Township is only responsible for 16.67% the cost of this work of this road reconstruction, with remainder being funded from both Provincial and Federal levels, through the Investing in Canada Infrastructure Program (ICIP) funding program. There is a deadline associated

with this funding program and this project needs to be included in the 2025 Capital Budget.

Description
Justification

Sidewalk replacement as part of the St. Ann's Rd Reconstruction project. This funding allocation is for the construction phase of the project.

The current sidewalk is substandard and some areas do not meet the OADA requirements, and a liability. As part of the road reconstruction project the sidewalk will be replaced and

will be located on the west side of the road from Twenty Road to Sixteen Road. Township is only responsible for 16.67% the cost of this work of this rehab work, with remainder being funded from both Provincial and Federal levels, through the Investing In Canada Infrastructure Program (ICIP). There is a deadline associated with this funding program, so this project

needs to be included in the 2025 Capital Budget.

Description

Regulatory road signs throughout the Township

Justification

Street and Traffic Signs are purchased throughout the year as required. Road signs are regulated and need to be changed on a regular basis. The Township is in need of replacing many signs to be within Provincial standards. Therefore this budget is needed to rectify damaged and old signs that are a liability to the Township. As per the Township's Tangible

Capital Asset Policy, this expenditure is to be capitalized.

Manager Regions

Description

Replacement of the existing Sanitary Sewer

Justification

The existing sanitary sewer on Dufferin Street is in very poor condition and requires replacement. Based on CCTV inspections and flow monitoring completed in the area, replacing this sanitary sewer will address the existing condition and will also reduce the extraneous flows, and inflow and infatuation (I&I) during wet weather conditions. Reducing extraneous flows

and I&I will assist with creating more capacity in the sanitary system to allow for infill and intensification development.

Strategic Plan

Champion strategic and responsible growth

Description Upsizing of existing gravity sewer on Townline Road, easterly along Townline Road to Anderson Crescent, then northerly on Anderson Crescent via existing easement to southside of

Twenty Mile Creek. The 2025 funding is to complete the detailed design for this sanitary sewer upsizing.

Justification The sanitary sewer upgrade was identified in the Master Community Plan and the Water & Wastewater Servicing Master Plan to service the new proposed development on the south

side of Townline Road, west of Shurie Road, known as Stage 3A. This project is also included in the Development Charge Background Study funded through Development Charges for

a portion of the project cost.

Manager Regions

Description

Remedial work to reduce Inflow and Infiltration within the Sanitary Sewer system. This is a multi-year program.

Partner

Justification The Township is in a multi year program to reduce the Inflow and Infiltration into our sanitary sewer system. The last few years have been spent doing studies and CCTV inspections to

> locate I&I issues with the intent to correct those deficiencies. In 2023 the Township undertook sewer spot repairs and sewer re-lining in priority areas of our sewer network to mitigate inflow and infiltration into the system. The treatment of extraneous flows into the sanitary system is very expensive. The other benefits of I&I removal include creating capacity for future development / growth, and to mitigate overflows into the natural environment. This year's budget will be used to continue with our I&I efforts, which may include further

studies/flow monitoring, risk assessments, continuing with our inspection and any remedial work, and reviewing other possible I&I mitigation measures.

Strategic Plan

Build a safe, connected, caring and active community

Description

Installation of new storm sewer, manholes, and catchbasins to improve drainage as part of the St. Ann's Rd Reconstruction project.

Justification

The installation of the storm sewers is part of the St. Ann's Rd reconstruction project. Storm sewers are part of the urbanization and reconstruction of St. Ann's Road. The cost of storm sewers is an ineligible cost under the Investing In Canada Infrastructure Program (ICIP). There is a deadline associated with this funding program, so this project needs to be

included in the 2025 Capital Budget.

Description

Storm Water Management Pond sediment clean-out

Justification

In 2023, the Township completed an assessment of all the Storm Water Management Pond facilities. Report PW 20-2024, presented to Council (all committee meetings) on August 12, 2024, identified this pond as a top priority to be cleaned out. In order to function properly and to be in compliance with the Township's Consolidated Infrastructure - Environmental

Compliance Approval (CLI-ECA), these storm water management ponds require regular maintenance, which involves removal and disposal of the sediment build up, vegetation

management, erosion repairs, and other asset renewal work as required.

Description New Wellandport Park, with a recreational focus "play in nature" theme.

Justification The 2025 funding is to complete the detailed design for the open space parkland between the existing Wellandport Community Centre/Library facility and the Welland River. The

redevelopment of this riverfront open space includes the following components: 1) Disc Golf; 2) Children's Play Area and Shade Structure; 3) Pickleball Courts; 4) Boat Launch with additional parking to accommodate vehicles with trailers; 5) Concrete Pad and Structure for canoe/kayak rentals and storage; 6) Fishing Platforms; 7) Habitat Creation to provide more recreational and community benefits; 8) Riparian and Shoreline Restoration; 9) Picnic Area; 10) Dock for canoe/kayak access; 11) Improved parking lot design for Community Centre; and 12) Driveway/Laneway improvements and access control features. Changing the setting of this wide open space will be a great way for children and adults alike to enjoy unstructured play, with the ultimate goal of empowering people of all ages to "Play in Nature". Construction funding is allocated in 2030; However, administration is currently seeking

funding opportunities to move the timing of construction forward for this project.

Description

System hardware upgrades to Windows 11. Windows 10 is EOS (End of Support) in October 2025, and upgrades to Windows 11 are imperative

Main

Justification

Budget for IT replacement of network computers throughout Township IT department. New circulation computers will allow our staff to work more efficiently with our library members and our staff with their day to day work loads. The upgraded operating system will allow for better security. All staff will then be working with the same operating systems regardless of

location or computer used which in itself will be a benefit.

Description

This budget item will cover the cost of hiring a consultant to assist the Township to create a CIP to stimulate and promote the creation and longevity of affordable housing in the

Township of West Lincoln.

Justification

An Affordable Housing Community Improvement Plan is an appropriate tool to assist the development community create affordable housing. The Province has now defined what is considered to be affordable. However the cost of environmental clean up, permit fees, planning application fees and other costs can only be waived by virtue of a CIP. In order to achieve affordable housing, incentives of this nature are still being requested by some members of the development community.

The Affordable Housing Community Improvement Plan will aim to establish a new housing partnership with multiple providers to address the Township's needs for affordable housing.

Once established, the Affordable Housing CIP will offer financial incentives to private property owners and non-profit housing providers who wish to build affordable housing in West Lincoln. This will also benefit the Township in helping to get closer to meeting its housing growth target.

Description

Update of Township of West Lincoln Official Plan to align with the new Regional Official Plan and Provincial Planning Statement

Justification The Region of Niagara Official Plan was recently completed in 2022 and as a result the Township of West Lincoln is required to update our official Plan to align with Regional policy.

> The Official Plan update will also align the Township's Official Plan with the new Provincial Planning Statement, 2024 and a significant number of other changes in Planning legislation that have occurred over the past 10 years since the Official Plan was last updated. This project will focus on updates to the Township's Agricultural Policies and Urban Development

Policies recently added through Official Plan Amendment 63.
